THE NEW SCIENCE OF LEADERSHIP

LEADERSHIP IS INFLUENCE

When facing persistent, resistant challenges, leaders often surrender to poor results or invest in change efforts that waste time and resources. And yet it's possible to influence behavior with surprisingly predictable success.

For the past thirty years, we've studied leaders with a proven ability to influence rapid, profound and sustainable change. And here's what we know: human behavior is grounded in six sources of influence. Effective leaders know how to leverage and apply these sources to influence real results.

INFLUENCE IN ACTION

Influencer goes beyond corporate perks and charismatic personalities to teach a method for changing ingrained human behavior.

Leaders learn how to achieve better results by changing human habits that are extraordinarily difficult to alter—especially those that mire down teams and organizations. Drawing on the skills of the world's best change agents and five decades of social-science research, Influencer teaches why people do what they do and how to help them act differently.

The Influencer Model

Named The Change Management Model of the Year by *MIT Sloan Management Review*, Influencer gives organizational leaders—senior, emerging, and even those without formal authority—a powerful and portable model for achieving rapid, measurable, and sustainable behavior change.

“The most important capacity you possess is your ability to influence behavior, that of yourself or others.”

—Joseph Grenny
co-author of *Influencer*
